On February 19, 2016 various samples throughout the City of Crystal City were taken and sent to the Pollution Control Service Lab located in Universal City, Texas. On February 20, 2016 at 10:45 a.m., Water/Wastewater Superintendent Carlos Ramirez, received the report back from the lab which tested negative. This indicates that water is safe for consumption. The Public Works Department will continue to monitor the water system. If you have any questions or concerns, please contact the City Hall at 830-374-3477.
